

Valley Primary School Online Information

Our Remote Learning offer for Online Learning

Welcome to our virtual learning page which details our virtual offer for children who are absent from school due to self-isolation.

At Valley Primary School, we aim to provide an offer which allows continued access to learning from home.

Daily home learning opportunities are set using one of the following methods dependent on whether a whole class bubble is self-isolating or if this is an individual self-isolation.

- Weekly home learning plans via e mail
- or
- Microsoft Team Virtual Live Lessons and subsequent work set using the Assignments section.

This combines with additional open ended opportunities which can be accessed via:

- Valley Primary School Website Learning Zone in the Children Section.
- Purple Mash
- Times Tables Rock Stars

What you can expect from our Virtual Learning Offer

Individual self-isolation

If your child is self-isolating as they have been in contact with someone outside of school or have themselves tested positive with COVID 19, they will be able to access weekly **home learning plans**, via their Microsoft Teams Log in. Home learning plans will include a daily English and Maths lesson which mirrors that in school and a weekly wider curriculum home learning plan including live videos from professionals across the country via Oak Academy. Work from this should be either emailed into the home learning email address or kept as paper copies and brought into school when your child returns

You will also continue to be able to access our Learning Zone in the Children section of Valley Primary School Website and our key learning apps Time Tables Rock Stars and Purple Mash

Whole class bubble isolation

If your child's whole class has been asked to self-isolate, learning will be accessed via **Microsoft Teams**. In the situation where the class teacher is unwell, it may be possible for children to access a class in their year groups lessons or a similar offer to the individual self isolation offer may be provided. Assuming your child's teacher is able, we will operate a weekly timetable consisting of three live lessons per day, one English, one Maths and one Foundation lesson which will be different each day. Following this live session, work will be set via Microsoft Teams Assignment section which your child completes and submits following the lesson. This will then be marked and returned by the teacher.

For Children in EYFS, we will offer short sessions via Microsoft Teams or via videos on our School Website which will focus on developing early literacy and maths skills, including phonics input and a story session. This will be accompanied by a home learning activity choice sheet.

Additional Online Learning Platforms

Valley Primary School Website has a Learning Zone in the Children's section which is updated regularly to offer relevant links to your child's curriculum and further access to online learning opportunities which will help your child. Our school website also includes specific Mental Health Activities which we would encourage all our children to access. You could ask your child to keep a diary of sites they have accessed using links from our website and key learning achieved.

TTRockstars is an excellent tool which allows children to practise their Times Table recall in a fun, safe and interactive way. The system is able to tailor the Times Tables each individual is given every time they play to maximise their learning. Children have their own Rockstar identity and avatar and should have a username and password already. Through regularly playing any of the games on the site, they can earn points to buy items for their home page and character.

All children in Year 2-6 have been provided with their username and password to access the site.

PURPLE MASH is a site that your child will be using and their class teacher may set some work on that site. Your child should already have a username and password for this site. This is also a useful place for your child to keep in touch with their class-mates through a Class Blog and notice board area where they can post work that they have completed at home.

REAL P.E. is a site where your child can access specific P.E. activities mirroring and complimenting those they do in school. Your child should already have a username and password for this site.

charanga

CHARANGA MUSIC is a site where your child can access specific Music activities mirroring and complimenting those they do in school. Your child should already have a username and password for this site.

OXFORD OWL is a site where your child can access a variety of ebooks linked to their reading colour level. Your child can set up a free account on this website.

OAK ACADEMY is a government site which has a variety of lessons for children to access. We would particularly encourage our children to access Oak Academy library which features many authors sharing books and promotes Reading for Pleasure <https://library.thenational.academy/>

Ongoing Challenge Activities

- Vision and Values focus PSHE Activity – we continue to ‘Aspire, Enjoy, Achieve and then Challenge ourselves further in everything that we do.’ Each half term we have a new Value which is our focus. We encourage children to consider how they can show this in their daily lives or in things they see on the television, on our recommended websites or during remote lessons.
- KIRF ... Key Instant Recall Fact, to focus on ... this should be practised as much as possible and will be assessed at the end of the half term.
- Rainbow Spellings... a list of spellings at various levels with suggested activities to be completed at home.
- Around the World Activities... additional projects and activities in SMSC, Personal Development, Topic (History and D.T focus) and Topic (Geography and Art focus), English and Maths.
(Remember to choose at least one from each subject box so you can travel Around the World and complete your Topic Passport to be in with the chance of winning a spectacular prize at the end of the year!)
- PSHE Diary – Keep a diary of your feelings each day and activities you do. Always include the most positive thing that happened that day. Consider any hopes or targets for the next day. You can keep parts of this private and choose to share parts with your teacher or class when you return.
