

EYFS Magical Maths Activities

LEGO Patterns

If you have LEGO at home you can definitely have a go at this! Prepare some cards with colourful blocks on them and discover colour patterns and reproduce them with LEGO blocks.

Missing Numbers

Write number sequences on craft sticks and remember to leave some blanks in between. Next, you write the missing numbers on a bunch of clothes pins. Now you're ready to clip the pins on sticks.

Straws and Pom Poms

Label small containers with some numbers that you would like to practice and prepare some straws and pom poms. Put the straw on a pom-pom, suck in to try and pick it up and drop over the containers until you have got the right number in each one.

Egg Cracking

Create 'eggs' by cutting out oval shapes from cardboard and write different numbers on them. Let the kids identify the numbers and crack the eggs by punching the corresponding number of holes in them.

Number Counting

Can you find a space outside and create your own counting game.
