

LKS2 Super Science Activities

Take a walk

Go for a walk in your local area. Look for evidence of flowers, seeds, berries and fruits. Did you find some plants that would disperse their seeds through wind, animals, water or even explosion?

Making things move

Take a toy car, or any toy with wheels and give it a push on 4 different surfaces in your house or outside space. Which surface do you think the car will go furthest on? Try it out a few times to find out. Can you find any other ways to make your toy car move?

Different diets

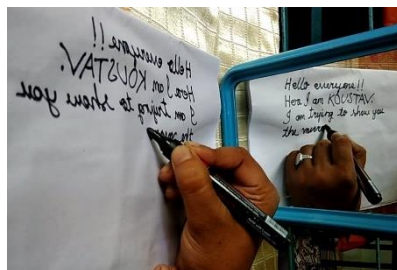

Make a food diary for what you eat in a day. What different types of food do you eat? How could you group them? Do you have a pet? Make them a food diary or research the diet of another animal. How does their diet compare to yours?

Mirror writing

Put a piece of paper in front of a mirror. Without looking at the paper, look into the mirror and try to write your name on the paper. Is it difficult? Why do you think this is?

Translucent, transparent, opaque

How many objects can you find in your house that are translucent, transparent and opaque? How do you know?
