

UKS2 Magical Music Activities

Pulse and rhythm

Can you research what pulse and rhythm are?

Create a commercial

Thinking about a musical instrument or looking online your job is to try and see that product. Can you use funny lyrics and corny melodies for your commercial?

Tissue Dance

A tissue dance is more like a balancing act and less of a dance form. But, it is fun!

You will need:

A box of tissues, Space to dance, Music player

How to play:

Grab a tissue and put it on your head.

When the music starts, they should start dancing and moving on the dance floor, without letting the tissue fall.

If the tissue falls off your head and you catch it before it touches the ground, you can put it back on your head and continue dancing.

But if the tissue falls on the ground, you're out.

The last one to stand dancing with the tissue is the winner.
