

# Key Instant Recall Facts

## Year 6 – Summer 1

### Key Vocabulary

What is 2 multiplied by 7?  
What is 6 times 9?  
What is 7 groups of 12?  
What is 42 divided by 6?  
How many lots of 5 are in the number 60?  
What is 24 shared between 6?

### I aspire to know the multiplication and division facts for all times tables up to 12x12.

By the end of this half term, children should be able to answer all multiplication facts up to 12 x 12. The aim is for them to recall these facts **instantly**.

### Please see separate sheet for all times tables

#### Example questions

A vending machine is broken and only takes 5p coins. How many coins do you need to pay for a bar of chocolate that costs 45p?

A piece of ribbon measure 56cm in total. 8 cm are needed to make a bow. How many bows can we make?

### You could try some of these activities....

The secret to success is practising little and often. If you would like more ideas, please speak to your child's teacher.

#### Use memory tricks

[www.multiplication.com](http://www.multiplication.com) has some strange picture stories to help children to remember tricky facts.

Use your child's personal Times Table Rock stars log in at <https://trockstars.com> please see the class teacher if you are unsure of their log in details.

#### Online games

<http://www.conkermaths.org/cmweb.nsf/products/conkerkirfs.html> is a good website to use.

Play Fizz Buzz. To practise the 5 and 8 times tables together take it in turns to count in ones. If a number is in the 5 x table say 'Fizz' instead of the number. Say 'Buzz' if it's in the 8's and 'Fizz Buzz' if it's in both.

Here is a blank grid you can practice a range of combinations on.
